[1]) Bed extension for sitting area available as an option
[2]) 3rd bunk bed instead of bunk bed available as an option
[3]) extendable slatted frame for single beds available as an option
[4]) extendable slatted frame for single beds available as an option

STANDARD EQUIPMENT

Chassis

- AL-KO chassis with semi-trailing link axle
- hydraulic shock absorbers
- 5-point wheel mounting
- Automatic reverse
- Servo-assisted hand brake
- Winding corner steadies for stable standing

BODY

- Roof of GRP w/ reduced sensitivity of hail
- Aluminium hammer finish, on the side walls, front and rear in plain sheet metal (not on 390 QD / 400 LK / 550 UK / 740 UDF)
- One-key locking system
- Hinged double windows (one each with combination blind in the kitchen area)
- Cabin door: WEINSBERG TREND – two-piece, without window
- Foil artwork WEINSBERG
- Curtain windows in middle dark degree
- Gas bottle locker with outside flap, with metal ground (can be equipped with 2 x 23 kg bottles)
- Wall thickness: 31 mm
- Roof thickness: 31 mm
- Floor thickness: 38 mm
- 12 V awning lamp
- Third brake light
- Smooth aluminium finish on all walls (on 390 QD / 400 LK / 550 UK / 740 UDF)

LIVING / SLEEPING

- Furniture decor Oregon Ash and Sand Beige
- Durable PVC floor
- Corner shelves at U-seating group
- Canopy with lighting above kitchen
- Upholstery selection: ALU, OCEAN, LEMON (additional charge: Active Navy), Curry Yellow on 390 QD / 400 LK / 550 UK / 740 UDF
- Curtain as room divider

- | UK Standards

POWER SUPPLY

- Electric connector to the towing vehicle, 13-pole Jäger
- Interior lighting completely in 12 V
- 230 V outside socket outlet
- Fi breaker
- 240 VA transformer
- Various socket outlets inside
- | Socket GB-type-tested
- | Transformer/charger on 390 QD / 400 LK / 550 UK / 740 UDF

GAS / WATER / HEATING / AIR CONDITIONING

- Gas heating: Truma heating S 3004 up to body length 550 (Truma S 5004 on 740 UDF) with Piezo ignition
- Gas regulator
- 15 l fresh water tank
- Water supply system with 12 V immersion pump
- Central waste water conduit, one outside drain under the floor
- | Special gas regulator 30 mbar
- | Gas test certificate and badge

KITCHEN

- 3-burner cooker and sink made of stainless steel, with glass cover
- 107 l Dometic refrigerator, 12V, gas, 230 V
- Gas oven on 740 UDF

BATHROOM

- Dometic ceramic cassette toilet
- Corner washbasin in wooden cabinet, with mirror
- Wooden cabinet with shelves
- Shower equipment available as an option (standard on 390 QD / 400 LK / 550 UK / 740 UDF)

Additional Standards in UK

- | Instruction manual in English
- | Upholstery fire resistant
- | Start-Now package - England without waste water tank and camping furniture
- | Hinged window in the front
- | leisure battery (gel)

IMPORTANT INFORMATION

ALL CARAVANS AND MOTORHOMES BY WEINSBERG ARE DELIVERED WITH A EUROPE-WIDE 10 YEAR LEAK TIGHTNESS GUARANTEE AND A 24 MONTHS WARRANTY. PLEASE NOTE FOR ALL WEINSBERG CARAVANS AND MOTORHOMES:
Dimensions and weight data may vary ca.+/-5% due to tolerances of the natural raw materials used. With any modifications done on the vehicle by a non-authorized dealer or garage you may put at risk your personal security and lose WEINSBERG operating licence and warranty. Therefore please leave reperations and retrofits to the authorized WEINSBERG dealers and insist on WEINSBERG original equipment. All price information are recommended tetail prices with delivery ex work and include 20% legal VAT. The prices of the optional equipment are only valid for a factory moderated installation of the regular production. Retrofittings, if technically possible, will cause additional mounting and material costs. The prices of our individual packages are fixed prices and cannot be changed because of additional options. Ordering optional equipment which substitutes specific package options will not be delivered additionally. In exceptional cases some combinations of extras and options may occur as mutually exclusive. We reserve the right to any technical modifications as to design, colour, and equipment, if technical improvement requires us to do so. The contents of this list reflect arrangements at printing, in 07/2018. It is effective as from 01.08.2018 for the 2019 model year. Mistakes and printing errors are excepted. Previous lists are no longer valid. We reserve the right to change content at our discretion. The water supply system is minimum state of the art (03/2009) (Regulation 2002/72/EG).

WEINSBERG caravans come with generous permissible vehicle payload options. By means of innovative solutions such as using high performance steel chassis' and honeycomb technology on furniture, low vehicle net weights are being realised.

*) ANNOTATION CONCERNING WEIGHT DATA OF YOUR WEINSBERG CARAVANS:

The mass of the empty vehicle as referred to in the price list is the mass of the vehicle with standard equipment and without basic equipment, i.e. without „liquids" and without optional fittings as referred to in art. 2, ciff. 3 VO (EU)

Mass in running order, see Articel 2, ciff. 4 a) VO (EU) 1230/2012, unless nothing different is regulated, is defined as follows:

Mass of the vehicle with standard equipment as referred to in manufacturer specifications:
+ Steel liquid gas bottles (11 kg) filled to 100% (i. e. 23 kg total mass)
+ Fresh water tank (filled to 100%)
+ Toilet flush tank (100 % full)
+ Fresh water boiler filled to 100%
= Mass in ready-to-start mode

The "permissible total mass" see Articel 2, ciff. 7 VO (EU) 1230/2012 is defined as follows:
The mentioned vehicle's maximum mass from the manufacturer in loaded state (incl. Optional equipment/extras/packages and gas, water, luggage and load, etc.)

For you as WEINSBERG caravan user:
The maximum permissible payload as referred to in the WEINSBERG catalogue is defined as:

Tecnically authorized total mass - mass in running order = maximum permissible payload

Example:
(Tecnically authorized total mass) 1.400 kg
- (Mass in running order) 1.090 kg
= (Maximum permissible payload) 310 kg

Please note that maximum permissible payload as referred to in the catalogues, for example if the mass of the additional fitting is reduced.

Please note that your WEINSBERG caravan still must have a minimum payload capacity (= minimum payload) after deduction of optional equipment's mass from the maximum permissable payload, which may not be below the minimum payload (cf. attachment I, part D, para. 2.3.4.1 VO (EU) 1230/2012):
(Maximum number of berths + total length (in m) of the vehicle body) x 10 = Minimum permissible payload (kg)
Example:
[(Maximum number of berths) 4 + (total length (in m) of vehicle body) 5] x 10 = 90 kg
The mass of the vehicle with standard equipment according to manufacturer specifications is determined through weighing of the vehicle with standard fitting.

As a user of a caravan, you are required not to exceed the values of the permissible total mass in driving mode, and respective maximum permissible axle load and nose weight limits. Furthermore, you are obliged to adhere to all other requirements for a safe usage of your caravan.
